## Key Activities

**Family Counseling Center:** The Family Counseling Center had a busy month coordinating the holiday Adopt-A-Family program. This year, 20 families were adopted by 13 donors, including 7 seniors who were surprised with gift baskets. It was rewarding to see the families' reactions to the generosity and love that this annual program provides.

**Police Social Services:** The police social workers also participated in the Adopt-A-Family program and helped to deliver holiday baskets to seniors. Linda Young and Pat Dahmen worked together to obtain a free bed for a local senior in need. The bed was delivered and some old items were removed at the resident's request. This month was a great example of how the divisions work together to care for the community!

**Teen Center:** The Teen Center offered its first computer coding class in December. The program also took field trips to see the Brookfield Zoo Lights and to volunteer at Feed My Starving Children. Other activities included creating holiday ornaments, stress balls, and slime, as well as welcoming the division's therapy dogs.

**Senior Services Program:** The annual Holiday Extravaganza Party held on December 14 boasted an attendance of 103 area seniors. The High Stakes Band kept everyone in good spirits, dancing to a variety of holiday music during the celebration. December was filled with many special events to celebrate the holidays. Great food, raffles with prizes, entertainment, and most importantly, the company of one another, truly made the holidays special.

**Nursing:** Since sending out informational packets to local hospitals and rehab centers in November, the Nursing Division has continued to receive new client referrals because of the mailing. A total of 13 new clients were referred to the medical equipment program in December.

On December 3<sup>rd</sup>, Connie Snarich Storck started as the division's full-time Community Health Nurse.

## COMMUNITY SERVICES KEY PERFORMANCE INDICATORS:

**KPI 1: Staff will both attend and provide job related trainings to both internal and external audiences.**

It is important to the community and to the village that Community Services staff remain experts in our respective fields. By facilitating, organizing and participating in trainings staff remain experts in liability reduction, stay current on laws, and recognize advancements in our field. In addition to measuring the internal aspect of this KPI, the department is also interested in measuring trainings to external audiences (clients and other service professionals). This KPI ties to FY 2018/19 Department Goal #4 to enhance community outreach through the provision of social services programming for vulnerable populations to improve their quality of life.

**KPI 2: Address issues of hoarding in the community to improve public safety and health.**

Hoarding impacts not just a homeowner's living conditions, but often leads to increased health risks, social isolation, and more sweeping risks of fire that can impact first responder safety and the safety of others in the community, especially in multi-unit dwellings. There is a need to ensure that staff are addressing and following up on these homes to remain active with staff intervention, services, and hopeful remediation of the severity of the issue. The nursing and police social service units will track monthly all hazardous home site contacts they have. Contacts will be defined as any face to face interaction involved in assisting the resident in moving the home towards habitability, or in the creation of an alternative plan for the resident.

**KPI 3: Provide quality community services to Schaumburg residents.**

Client satisfaction surveys provide information on how well the department is meeting the social, emotional and safety needs of community members. The surveys also provide helpful feedback and information on areas for recommended service improvement. At this time the Family Counseling Center and the Nursing and Senior Services Division distribute and collect surveys.

**KPI 4: Provide activities to assist teens in developing life skills.**

One of the primary purposes of the Teen Center is to provide a safe, supervised, and nurturing environment for area young people to participate in comprehensive service in the areas of recreational, educational, social activities while interacting with their peers, adult staff and volunteers to enhance personal development, knowledge and self-concept. Among other ways, this is done through specialized activities such as homework help, discussion groups, mini-courses, Red Ribbon Week (drug prevention and intervention), Healthy Teen Week (promotion of nutrition, hygiene, and fitness), and a monthly Strengthening Youth Development program where a theme is explored throughout the month. In this KPI, staff will be tracking the number of teens who participate in each specialized activity that is offered in relation to the total number of teens present at the center while the activity is being offered.

**KPI 5: Assisting seniors meet their nutritional needs throughout the week.**

In keeping with the mission of the Senior Program, to ensure that the nutritional needs of senior residents in the community are met, The Barn Senior Program, in collaboration with the Greater Chicago Food Depository, provides an Older Adult Market (OAM) twice a month for anyone age 60 or over. The Market offers a multitude of shelf-stable food items (such as cereal, canned fruits/vegetables/meats, and rice) and fresh produce at no cost. While the Village in-house program offers a daily nutritious lunch for seniors, the OAM enables them to have access to healthy food for the remainder of the day and on weekends. In this KPI staff will be keeping track of how many seniors participate on each Market Day and how many people live in their home and are thus being served by this food.

**KPI 6: Reaching a broad external audience utilizing social media.**

The Village of Schaumburg has placed a high priority on communicating news, events and information about its programs and services to the public and it uses a number of tools to successfully achieve that goal. Because technology is constantly changing, it is important the village remain informed and utilize communication methods that will best reach the intended audience. Social media tools, such as Instagram, Facebook, Twitter, and Nextdoor, enable the village to better inform and engage the public. In this KPI, staff will track the number of subscribers to each of its social media sources monthly and how many of those subscribers are new that month. This KPI ties to FY 2018/19 Department Goal #1 to implement social media strategy goals from the village’s Strategic Communications Action Plan

## Family Counseling Center / Monthly Performance

Family Counseling Center: Provides family, couple, and individual counseling to village residents. The sliding scale fee system that is utilized assures that residents who may be unable to afford a private practitioner will be able to get help from a qualified, experienced clinician; limited insurance plans are also accepted.

**Customer Service | Total Number of Clients Served:** Performance indicator of the number of clients served by all licensed clinicians.

*Intake = call to request counseling services*

*Session = counseling session*

*Wait List = data is determined by tallying the number of clients whose initial request for therapy came in a month previous to the month when they came in for their first appointment. For example, if a client called on the last day of the month requesting services, but they were not assigned to a therapist until the first day of the following month, they would be counted on the wait list for the previous month.*

**FCC Revenue Received for Counseling Services Rendered:** Performance indicator of the financial health of operation. Revenue Collected includes all payments received (cash, checks, and insurance) received from clients.

## Family Counseling Center

		
75% on sliding scale fee	73% individual 27% family	5% in-home visits

### Police Social Services Unit / Monthly Performance

Police Social Service Unit: This service is designed to respond to any individuals or families experiencing a crisis situation when they come in contact with the police department. The staff is available 24 hours a day, 7 days a week.

**Customer Service | Total Number of Clients Served:** Performance indicator of the number and category of clients served by all licensed social workers.

	THIS MONTH	SAME MONTH 2017	YEAR-TO-DATE	PREVIOUS YEAR 2017

### Senior Program / Monthly Performance

**Senior Program:** Located at the Barn, for a small donation, a well-balanced and nutritious weekday lunch program is funded by the Community Nutrition Network and provided to Schaumburg Township residents who are age 60 and over and/or disabled; served weekdays. Various activities are also offered.

**Customer Service | Total Number of Clients Served:** Performance indicator of the number of clients served by program personnel. **Total clients served to date** are 11,504 versus prior year 11,992.

### Nursing & Senior Services Division / Monthly Performance

The division is committed to the needs of the residents of Schaumburg. A variety of services are offered to promote the physical and emotional well-being of these residents. This division also provides preventative health services to village employees and serves in an advisory capacity for the Schaumburg Healthy U Initiative.

### External Programs

**Customer Service | Home Care Services:** Visiting nurse and home health aide services are available to homebound residents who do not qualify for other services. Our nurses and home health aide visit residents in the home monitoring their care under the guidance of their physician and provide help with activities of daily living. In addition, our registered nurses are available to meet with residents to address any concerns, provide education, review medications and provide community resource information.

ACTIVITY	THIS MONTH'S TOTALS COUNT	SAME MONTH 2017	YEAR-TO-DATE TOTALS COUNT	PREVIOUS YEAR 2017
