Organizational Chart

Key Activities

Family Counseling Center: Justina Wang updated the website for FCC, adding bios for each therapist. The new online closing questionnaire/survey has been completed. A suggestion form was also created and a new drop box for this form is being installed at FCC. Staff will now begin to utilize both the survey and suggestion box.

Police Social Services: Sarah Hipp developed training for officers on elder abuse law and how to best manage children who are on scene during domestic violence calls. Sarah Hipp and Linda Young presented this training at all three roll call police shifts.

Teen Center: The Teen Center sponsored Red Ribbon Week: an annual drug prevention/intervention program. This year they had Schaumburg Police Department as a guest speaker. Justina Wang also updated the Teen Center webpage and a monthly event calendar is now available online.

Senior Services Program: The Committee on Aging sponsored a Senior Health Insurance Presentation at the Barn on 10.10.17. There were approximately 40 people in attendance.

Nursing:

Secretary Bonnie Raimondi retired after 27 years of service at the village.

The nurses administered 234 flu shots in October to employees. They offered 10 flu clinics at village locations: Russ Parker Hall, public works, five fire stations, and the police department. Fire and police were also offered TB screenings. A total of 49 employees took advantage of this service.

A blood drive was held at the Barn on October 30. A total of 39 units were collected, 44 donors were registered, and 117 lives can be saved.

COMMUNITY SERVICES KEY PERFORMANCE INDICATORS:

KPI 1: Provide Education to Internal/External Audiences

It is important to the community and to the Village that Community Services staff remain experts in our respective fields. By facilitating, organizing and participating in training activities we remain experts in liability reduction, stay current on laws, and recognize advancements in our field. In addition to measuring the internal aspect of this KPI, we are also interested in measuring trainings to external audiences (clients and other service professionals). Organizing and participating in trainings to external audiences provides needed information, resources, and information to community members.

KPI 2: Hazardous Home Site Program

Hoarding impacts not just a homeowner's living conditions, but often leads to increased health risks, social isolation, and more sweeping risks of fire that can impact first responder safety and the safety of others in the community, especially in multi-unit dwellings. We want to be able to ensure that we are addressing and following up on these homes to remain active with our intervention, services, and hopeful remediation of the severity of the issue. The nursing and police social service units will track monthly the hazardous home site contacts they have. Contacts will be defined as any face to face interaction involved in assisting the resident in moving the home towards habitability, or in the creation of an alternative plan for the resident. The baseline will be established over the course of the 2017-2018.

KPI 3: Community Services Client Satisfaction

Client satisfaction surveys provide information on how well the department is meeting the social, emotional and safety needs of community members. The surveys also provide helpful feedback and information on areas for recommended service improvement. At this time the Family Counseling Center and the Nursing Division distribute and collect surveys. Exploration of implementing surveys within other divisions will take place over the course of 2017-2018.

KPI 4: Provide Activities to Assist Teens in Developing Life Skills

One of the primary purposes of the Teen Center is to provide a safe, supervised, and nurturing environment for area young people to participate in comprehensive service in the areas of recreational, educational, social activities while interacting with their peers, adult staff and volunteers to enhance personal development, knowledge, and self-concept. Among other ways, this is done through specialized activities such as homework help, discussion groups, Red Ribbon Week (drug prevention and intervention), Healthy Teen Week (promotion of nutrition, hygiene, and fitness), and a monthly Strengthening Youth Development program where a theme is explored throughout the month. In this KPI, we will be tracking the number of teens who participate in each specialized activity that is offered in relation to the total number of teens present at the center while the activity is being offered.

KPI 5: Helping Seniors Meet Their Nutritional Needs throughout the Week

In keeping with the mission of the Senior Program, to ensure that the nutritional needs of senior residents in the community are met, The Barn Senior Program, in collaboration with the Greater Chicago Food Depository, provides an Older Adult Market (OAM) twice a month for anyone age 60 or over. The Market offers a multitude of shelf-stable food items (such as cereal, canned fruits/vegetables/meats, and rice) and fresh produce at no cost. While our own in-house program offers a daily nutritious lunch for seniors, the OAM enables them to have access to healthy food for the remainder of the day and on weekends. In this KPI, we will be keeping track of how many seniors participate in each Market Day and how many people live in their home and are thus being served by this food.

KPI 6: Reaching a Broad External Audience Utilizing Social Media

The Village of Schaumburg has placed a high priority on communicating news, events and information about its programs and services to the public and it uses a number of tools to successfully achieve that goal. Because technology is constantly changing, it is important the village remain informed and utilize communication methods that will best reach the intended audience. Social media tools, such as Instagram, Facebook, Twitter, and Nextdoor, enable the Village to better inform and engage the public. In this KPI, we will be tracking the number of subscribers to each of these social media sources monthly and how many of those subscribers are new that month.

Family Counseling Center / Monthly Performance

Family Counseling Center: Provides family, couple, and individual counseling to village residents. The sliding scale fee system that is utilized assures that residents who may be unable to afford a private practitioner will be able to get help from a qualified, experienced clinician; limited insurance plans are also accepted.

Customer Service | Total Number of Clients Served: Performance indicator of the number of clients served by all licensed clinicians.

Intake = call to request counseling services

Session = counseling session

Wait List = data is determined by tallying the number of clients whose initial request for therapy came in a month previous to the month when they came in for their first appointment. For example, if a client called on the last day of the month requesting services, but they were not assigned to a therapist until the first day of the following month, they would be counted on the wait list for the previous month.

FCC Revenue Received for Counseling Services Rendered: Performance indicator of financial health of the operation. Revenue Collected includes all payments received (cash, checks, and insurance) received from clients.

Police Social Services Unit / Monthly Performance

Police Social Service Unit: This service is designed to respond to any individuals or families experiencing a crisis situation when they come in contact with the police department. The staff is available 24 hours a day, 7 days a week.

Customer Service | Total Number of Clients Served: Performance indicator of the number and category of clients served by all licensed social workers.

	THIS MONTH	SAME MONTH 2016	YEAR-TO-DATE	PREVIOUS YEAR 2016

Total	314	526	47	35	7	13	3401

Senior Program / Monthly Performance

Senior Program: Located at the Barn, for a small donation, a well-balanced and nutritious weekday lunch program is funded by the Community Nutrition Network and provided to Schaumburg Township residents who are age 60 and over and/or disabled; served weekdays. Various activities are also offered.

Customer Service | Total Number of Clients Served: Performance indicator of the number of clients served by program personnel. **Total clients served to date** are 10,099 versus prior year 10,803.

Nursing & Senior Services Division / Monthly Performance

The division is committed to the needs of the residents of Schaumburg. A variety of services are offered to promote the physical and emotional well-being of these residents. This division also provides preventative health services to village employees and serves in an advisory capacity for the Schaumburg Healthy U Initiative.

External Programs

Customer Service | Home Care Services: Visiting nurse and home health aide services are available to homebound residents who do not qualify for other services. Our nurses and home health aide visit residents in the home setting, monitor their care under the guidance of their physician and provide help with activities of daily living. In addition, our registered nurses are available to meet with residents to address any concerns, provide education, review medications and provide community resource information.
