COMMUNITY DEVELOPMENT ENGINEERING Intern - Unpaid

The Village of Schaumburg employs approximately 600 employees in a variety of departments within the organization, such as police, fire, public works, engineering, finance, human resources, cultural services, community development, information technology, and transportation. Our employees work to serve the residents and strive to make Schaumburg the best community it can be. Schaumburg is a thriving community of 75,936 residents located 12 miles west of O'Hare International Airport and approximately 26 miles northwest of the City of Chicago. The community is the base of the second largest concentration of retail, office and commercial activity in the state of Illinois and was recently named by Money Magazine as one of the Top 10 Best Places to Live!

Internship Goals:

- Provide intern with exposure to the civil engineering field
- Provide insight into working in the public sector

Internship Schedule:

- 2 hours per day; up to 3 times per week
- Willing to coordinate with school for class credit

Essential Internship Functions:

- Observe the Community Development Engineer, Civil Engineer, and Engineering Technician at work
- Learn the core functions of the Community Development Department Engineering division
- Additional opportunities may include supporting the Engineering staff with Engineering-development related projects, assignments, and research

Requirements:

- Currently enrolled in Civil Engineering, Environmental Engineering or similar degree program
- Interest in pursuing a career in engineering, particularly in environmental or civil engineering
- Good communication and interpersonal skills
- Criminal background check must be completed with satisfactory results
